Esistono due diverse procedure per il salvataggio di una lista di prodotti di ricerca:

- 1) L'esportazione di un file excel cliccando «Export» e selezionando «XLS»
- 2) Il salvataggio come «Publication Set». Al termine, l'elenco apparirà nella sezione di sinistra delle entità

Outputs in Top Citation Percentiles in SciVal (manuale Research Metrics Guidebook‡):

"indicates the extent to which an entity's publications are present in the most-cited percentiles of a data universe, but depends on the citations received by the publications themselves. Hence, it is a time-dependent metric".*

Outputs in Top Views Percentiles (manuale Research Metrics Guidebook)
"indicates the extent to which an entity's publications are present in the most-viewed percentiles of a data universe. Outputs in Top Views Percentiles can only be calculated for the current year from the first data snapshot on or after mid-July. It is advised to select the "Percentage" option when comparing entities of different sizes, to normalize for this variable."
